#	Christos Gekas Mechanical Engineer NTUA	
Title:	AE Academy Supervisor, LG Electronics, Athens, Greece	
email:	christos.gekas@lge.com	•
Presentation title:	Central and Remote Monitoring and Control for HVAC Systems - Improving Energy Efficiency	
<p>HVAC systems need a control system to regulate the operation of a heating and/or air conditioning system.</p> <p>As time goes by, and with the technology advancing day by day, it is only logical that Central controls tend to be more sophisticated and help monitor and control all the functions associated with HVAC operations.</p> <p>This presentation will cover the latest technology advancements in Central Controls but also present proper methods of setting up and operating them so as to ensure best possible energy efficiency.</p>
