

CALL FOR PAPERS

Papers are being sought for the second International Conference “**ENERGY in TRANSPORTATION 2017**” to be held in Athens, Hellas on October 21, 2017.

The Conference is organised by the ASHRAE Hellenic Chapter in collaboration with the Hellenic Navy, the Technical Chamber of Greece (TEE) and the Attiko Metro.

AN INTERNATIONAL EVENT

“ENERGY in TRANSPORTATION” expands the International Conference “ENVIRONMENT & ENERGY in SHIPS” and “GREEN TRANSPORTATION” that were held in 2015 & 2016 respectively, to include all modes of Transportation, Ship, Aviation and Land, both public and private. It brings together Engineers, Designers, Stakeholders, Academia and Professionals of different disciplines that contribute and advance the state of art development within the Transportation environment. Information and videos from the previous conferences can be found at the Hellenic Chapter’s website (www.ashrae.gr/events.php). The official language of the Conference is English. The Conference will host accepted papers and posters as well as presentations and workshops of invited speakers. There is no conference registration fee.

CALL FOR PAPERS

All interested authors are invited to submit papers to be considered for presentation in the International Conference “**ENERGY in TRANSPORTATION**”. Submitted contributions should be original research papers, not submitted or considered for publication elsewhere.

Authors should submit an abstract of no more than 400 words by **May 15, 2017**.

If accepted, full papers will be due **July 17, 2017**. A typical manuscript is limited to 10 pages.

Submitted abstracts and papers will undergo peer-review by the Conference Scientific Committee.

Submittal information and templates for abstracts, full papers and posters can be found at <http://www.ashrae.gr/eint2017.php>.

Authors of accepted papers are responsible for their travel and accommodation. An author must register and present his paper during the Conference in person, one mandatory author registration per paper, in order to be included in the final program, and the paper in the Conference Proceedings that will be published in an electronic media publication with open access (e-Proceedings book with an ISBN number).

THE CONFERENCE TOPICS:

The Conference presents the state of the art in building design, construction, commissioning, operation & maintenance as well as emerging new technologies & materials. The conference topics include, but are not limited to:

- ✓ Environmental Management
- ✓ Environmental Impact Assessment
- ✓ Renewable Energy in Transportation
- ✓ Life Cycle Assessment (LCA) in Transportation
- ✓ Energy Storage, Security and Power Safety
- ✓ Advances in Refrigeration and Alternative Refrigerants
- ✓ Transportation Demands in Infrastructure

- ✓ Indoor Environment Quality (IEQ), Health & Comfort
- ✓ Daylight & Artificial Lighting
- ✓ Advanced Materials and Applications
- ✓ New Types of Non-Conventional Energy Supply
- ✓ Upgrading Solutions for Improved Energy Performance
