**ENERGY in BUILDINGS - EPIRUS 2023**  
Saturday November 25, 2023  
Hotel Du Lac Ioannina

#	<p><b>Maria Malisianou</b> Mechanical &amp; Civil Engineer NTUA, MSc LEED AP, WELL AP, EDGE Expert</p>	
Title:	Senior Sustainability Consultant, ZEB SA	
email:	<a href="mailto:mmali@zeb.gr">mmali@zeb.gr</a>	•
Presentation title:	<b>Cracking the code – Mastering the LEED certification journey</b>	
<p>LEED, which stands for Leadership in Energy and Environmental Design, is the most globally adopted rating system that is used to score and certify the sustainability of new and existing buildings. LEED certification procedure, point system, certification levels and requirements will be presented. And most importantly... Why LEED?</p>		
Short CV:	<p>Maria Malisianou is a Mechanical and Civil Engineer from the National Technical University of Athens (NTUA), certified as LEED Accredited Professional, WELL Accredited Professional and EDGE Expert. She also has been graduated from MSc Design and Construction of underground works (NTUA).</p> <p>Her current role in ZEB as Senior Sustainability Consultant includes planning and coordination of LEED certification procedure for diverse projects such as offices, warehouses, hotels and residential development.</p> <p>During her career in Mytilineos (METKA), she was involved in projects such as offices, datacenter and luxury hotel as LEED construction coordinator. Additionally she had the opportunity to work as mechanical engineer in power plant design for projects in Slovenia, Ghana and Greece.</p>
