ENERGY in BUILDINGS – Northern Hellas 2019

Saturday May 11, 2019

Thessaloniki, Hellas

#	ARIS PAPADOPOULOS Computer Engineer	
Title:	President & CEO ZEB SA	
email:	arpap@zeb.gr	•
Presentation title:	Building Efficiency Services & ICT Environment	
<p>We are in an advanced technological era and hence buildings' efficiency may not be an exemption where ICT plays a significant role. The more and more increasing need for efficiency improvement requires more advanced energy management, more data and more efficient data analytics. How may ICT help in that direction and how can this be implanted is the scope of the presentation.</p>		
Short CV:	<p>Chief Executive Officer, Zero Energy Building SA</p> <p>Aris Papadopoulos is founder and holds the position of Chairman and CEO of ZEB SA, Energy Services Company (ESCO), among the first companies established according to the new institutional framework.</p> <p>Prior to the establishment of ZEB SA, over the last 20 years he has worked and managed a large number of construction projects (public and private) on behalf of a large construction group in the country as well as high technology and telecom projects on behalf of one of top SYSTEM INTEGRATOR companies.</p> <p>In ZEB SA he implements plans and policies for successful business management and defines the strategy for the development of innovative services.</p>
