

Event:

	<p>HEALTH in BUILDINGS <b>HYGEIA 2026</b> <i>where the medical &amp; engineering professions collaborate &amp; innovate</i></p>	
---	---	---

May 27-29, 2026 - Island of KOS, Greece

<b>#</b>	<p><b>Giulia Santi</b> Graduate in Economics, master's degree in Export Management, CGUVMP</p>	
Title:	CEO of Light Progress Group, S.R.L.	
email:	giulia.santi@lightprogress.it	•
Presentation title:	<b>Quantitative Assessments of ASHRAE 241 Conformance and the Contributions of UV Systems</b>	
<p>I work in the field of environmental technologies and sustainable building solutions, with a focus on ultraviolet (UV-C) disinfection systems for air, water, and surfaces. I am part of <b>Light Progress</b>, an Italian company specializing in UV-C technologies applied to HVAC systems, healthcare environments, water treatment, and industrial processes.</p> <p>Through my work, I am involved in promoting advanced UV-C solutions that help improve indoor environmental quality, reduce microbiological contamination, and support healthier and safer built environments. My activities include communication, international collaboration, and engagement with professionals and organizations working in the fields of sanitation technologies and environmental engineering.</p> <p>I am actively involved in the international UV technology community and serve as an <b>Executive Director of the International Ultraviolet Association (IUVA)</b>, where I contribute to initiatives that promote research, knowledge sharing, and best practices in ultraviolet disinfection technologies worldwide.</p> <p>Within <b>ASHRAE Italy Chapter</b>, I serve as <b>President-Elect</b>, supporting the chapter's mission of advancing knowledge in heating, ventilation, air-conditioning, and refrigeration (HVAC&amp;R) and fostering collaboration among industry professionals, researchers, and institutions.</p> <p>Through my professional activities and association work, I am committed to advancing technologies and strategies that improve indoor environmental quality, sustainability, and public health in the built environment.</p>		
Short CV:	<p>Giulia Santi is CEO of Light Progress Group, an international company specializing in UV-C technologies for air and water quality. CGUVMP certified and President-Elect of the newly established ASHRAE Italy Chapter, she leads global business development, technology communication, and international partnerships, and frequently speaks at international conferences on indoor air quality and UV-C applications.</p>
