Thursday March 21, 2019
Wyndham Grand Athens Hotel

#	<p>Vasilis Maroulas CEng, MCIBSE, AMASHRAE, MSc</p>	
Title:	Associate Director – Buildings London - Arup	
email:	Vasilis.maroulas@arup.com	•
Phone number:	+447702143850	•
Presentation title:	The Role of the Building Services Engineers in Restoring a Safe Operating Space for the City	
CV:	<p>Vasilis Maroulas has experience in a number of large and prestigious projects in the UK and abroad working always in multi-disciplinary teams, at every stage from concept through to construction and client handover. He has been working in the field of mechanical design engineering within the construction industry since 2001.</p> <p>Vasilis has a reputation for tackling challenges head-on and continuously aspires to promote design elegance and excellence through his work. He is passionate about progressive architecture, emerging renewable technologies and creativity in design. The technical content of his work has encompassed an extensive range of general building services, environmental passive design techniques, application of renewable energy sources and low energy ventilation systems. He has collaborated with a number of high profile architects and has aims to provide both client and architect high quality innovative design in conjunction with cost effective and energy efficient, sustainable design solutions.</p> <p>He holds a firm belief in the concept of ‘total design’ and the improved quality and economy that can be generated through a truly holistic sustainable design approach.</p>
